

Family Time is Learning Time.

Literacy affects all of us and is a challenge for many. Being able to learn and understand at school, work, the bank and the doctor's office is key to successful education and bright, healthy futures.

- Children spend about 900 hours in school versus 7,800 hours out of school.
- Time spent learning and engaged in educational play gives children advantages for years to come.
- Parental involvement is a more significant factor in children's academic performance than the quality of their school.

The Flint & Genesee Literacy Network is made up of hundreds of organizations and individuals committed to improving the quality of life of all learners in Genesee County.
